At Bathurst Soaring Club we're always delighted to welcome new members to the fraternity of soaring!

To make your decision as easy as possible, we've summarised your options – including GST!

Option 1:

You've decided that you'd like an "Air Experience Flight"? This consists of a 9-day temporary membership of the Gliding Federation of Australia or GFA (compulsory as it provides your insurance cover) plus **ONE FLIGHT** with an instructor in a two seat, dual control glider. Total cost including GFA membership for 9 days and insurance is **\$130** for a flight of approximately 20 minutes.

Option 2:

You'd like a few more flights, with some training if you decide to carry on? A 3 Month Trial Membership could be just what you need! Trial Membership gives **3 months Membership** of both the GFA and Bathurst Soaring Club. The package that we give you includes **your own Flight Log Book, a Gliding Textbook with all your necessary theory, FIVE Instructional flights** at no further cost to you and the right to take as many further instructional flights as you like during that period, paying only normal club rates. **Cost: \$400.**

Option 3:

I want to take out Full Membership! This gives you full access to one of the best-equipped and best-situated private gliding clubs in Australia! There is a **once only** joining fee of **\$180.00** – Full-time students, apprentices, Australian Air League and family of BSC Members are exempt! See below for full costing.

Option 4:

How about a mid-week intensive course with a blend of theoretical and practical instruction – we run these when demand is sufficient. We can't guarantee you'll go solo (although some may), but you'll be **well on the way!** Accommodation, instruction and 3-month GFA and BSC membership means that when the week is over you can continue to fly for the same low cost as all the full-time BSC members until the 3-month term expires. *(GFA fees for 2010-11)

<u>Membership</u>	<u>Joining Fee</u>	<u>BSC Annual</u>	<u>*GFA</u>	<u>1st Year Total</u>	<u>Cost Thereafter</u>
